WOMAN'S WORLD.

PRINCESS KAUULANI, WHO WILL BECOME THE WIFE OF PRINCE DAVID

English and American Factory Girls—Chicago's Fair Carvers—Fashionable Side Combs—Domestication Costumes—Horseback Man Fashion.

News comes from Honolulu that a royal marriage has been arranged between Prince David Kawanauaka and Princess Victoria Kauulani, niece of ex-Queen Lihoukalani.

All that is necessary to make the betrothal a formal one as befits Hawaiian royalty is the signature of dowager Queen Kapiolani to deeds of family settlement.

The bride to be is the daughter of ex-Governor Archibald Scott Cleghorn and the late Princess Miriam Likelike. Un-

PRINCESS KAUULANI.

der the monarchical regime that lately prevailed Princess Kauulani would have succeeded to the throne of Queen Lihoukalani.

Prince David is the son of David Kahalepouli, a famous high chief of Hawaii, and Kinohiki Kekaulike, the younger sister of Queen Kapiolani. No one in all Hawaii enjoys a greater measure of popularity than he.

He is devoted to the interests of Hawaii. Under the monarchy he was destined for a place in the department of foreign affairs. He served there in minor capacities for some time and gained a reputation for ability that would have stood him in good stead had Queen Lihoukalani continued on the throne.

The young man wears the dress of the everyday New Yorker, just as the bride to be wears the latest fashions from Paris. He is 26 years old, about 5 feet 10 inches in height and has a swarthy face. Both have visited in this country.

English and American Factory Girls.

"When the wrongs and oppressions of which the members of my sex are victims," said an ardent reformer the other day, "work me up into such a state that I feel I can stand it no longer, I read the English newspapers."

"Heroic remedy," commented the flippant woman who makes biting, empty club speeches.

"It's a positive cure for the divine discontent that comes of knowing too much about the working woman and the working woman's neglected children," continued the reformer thoughtfully. "And although I am dissolved in tears usually, before I get through I go back to my work next day with infinitely more courage and enthusiasm."

Striving to obtain higher wages and shorter hours and working to have unjust and unsanitary regulations abolished seem trifling tasks compared to the heroic labors which confront the English reformers. This month's number of The Women's Trade Union Review, for instance, gives an account of the fish curing industry in England.

Girls of 14 have been found to be working through Saturday night and until 5 o'clock on Sunday morning. The work is trying at the best of times, and the girls are described as crawling home in an exhausted condition. No wonder. The processes of gutting, salting and packing are exempted from the protection of factory legislation on the score that fish is perishable, and the employers take advantage of this fact, even when the work in hand is not of an urgent character.

"Then some of the women who do the exquisite Irish embroidery on linen are paid not with money, but in packets of candles, tea or soap. As The Review says, 'Thrift is a great virtue, and one which is always being inculcated in our industrial friends, but unless they were magpies they could hardly cultivate thrift on such payments as these.'"

"And you really think these instances you mention are worse than our sweatshops and factories?"

"Our sweatshops as they exist now are as good as the workrooms of most of the up town department stores, and the conditions of the English and the American factory girl are as different as is night from day."

Chicago's Fair Carvers.

Wood carving is rapidly coming into favor with Chicago society women. Hull House is the rallying point for the entire fraternity, as it is here that the Chicago Arts and Crafts society was organized, and here its principal meetings are held. One of the most widely known women of the wood carving fraternity is Mrs. Anne Higginson Spicer. Her workshop is in the cellar of what is known to her neighbors as "Ye Little Gray House." The cozy space now occupied by benches and all the paraphernalia of a complete and artistic wood-working establishment was once a coal bin. The history of Mrs. Spicer's enlistment in the ranks of this craft is simple but unique. Being unable to find in the "open market" the kind of furniture which she desired, she courageously determined to learn how to make it. At first her decorative attempts were of the simplest character, but as she gradually

The man who lies wounded on the battlefield is an object of pity.

The first thought of the tender-hearted comrade is to offer succor and sympathy. There are many wounded men and women on the battlefield of life. Shattered in body and mind, and suffering tortures before which the brief suffering of the wounded hero on the battlefield of war, pales into insignificance. They make no outcry and their friends and acquaintances pass them by without offering help. Their sufferings are known only to themselves. These are the thousands of sufferers from ill-health. Their name is legion.

The pity of it is that if they but knew it there is relief at hand.

An unending cure for all the multitude of ills that are due to disorders of the digestion and to impure blood is found in Dr. Pierce's Golden Medical Discovery. It makes the digestion perfect. It restores the appetite. It fills the blood with the life-giving elements and drives out all impurities. It is the great blood-maker and flesh-builder.

Mrs. A. J. Gibbs, of Russellville, Logan Co., Ky., writes: "I can heartily recommend your 'Golden Medical Discovery' to any one who is troubled with indigestion and torpid liver. I was so bad I could not lie on my left side and could scarcely eat anything. I had a dull aching and pain in my stomach all the time. Now it is all gone after taking one bottle of your 'Golden Medical Discovery.'"

"The People's Common Sense Adviser" explains symptoms of ailments common to every family, and suggests remedies. It has several chapters on woman's diseases and weaknesses. An edition in heavy paper covers will be distributed absolutely free. Send the World's Dispensary Medical Association, Buffalo, N. Y., 21 one-cent stamps, to pay the cost of mailing only. Cloth binding may be had for 10 cents extra—31 cents in all.

Keepers Posted.

At least one morning in the week the intellectual smart set in Washington arises an hour earlier and is seen wending its way to the Woodlawn club, where behind closed doors Miss Janet Richards posts her fair hearers on all the topics of interest of the day—political, religious, social and literary—so that when they take their departure they are able to discuss intelligently with priest, layman or politician subjects of present interest. A large number of the official set are among her audience. One busy woman said: "You do not know what a relief it is to us, for with all our social duties it would be impossible for us to keep posted on all the topics necessary for discussion in official life. We are also instructed in the literature of the day and learn what to criticize. How could we keep read up and have time for anything else?"

At least one morning in the week the intellectual smart set in Washington arises an hour earlier and is seen wending its way to the Woodlawn club, where behind closed doors Miss Janet Richards posts her fair hearers on all the topics of interest of the day—political, religious, social and literary—so that when they take their departure they are able to discuss intelligently with priest, layman or politician subjects of present interest. A large number of the official set are among her audience. One busy woman said: "You do not know what a relief it is to us, for with all our social duties it would be impossible for us to keep posted on all the topics necessary for discussion in official life. We are also instructed in the literature of the day and learn what to criticize. How could we keep read up and have time for anything else?"

THE CURRENCY BILL.

The House Committee on Banking and Currency has prepared a bill based upon the recommendations of the Indianapolis Bankers' Convention to reform the currency. The principal features of the measure are given as follows:

The establishment of a division of issue and redemption in the Treasury. The United States notes received by this division for redemption in gold are to be cancelled and retired, in proportion as certain substitute currency is issued. No note redeemed in gold is to be again paid out except under exceptional conditions.

National banks are required to assume the current redemption of United States demand notes in order to obtain circulation, based upon their commercial assets. A new class of notes called National reserve notes, is to be issued in lieu of greenbacks deposited by the banks with the Treasury, and these reserve notes are to be redeemed upon demand by the banks out of the redemption fund which they are required to maintain in gold. These reserve notes are not to be treated as bank notes, as the banks are not liable for their redemption.

The basis of National bank circulation will be the commercial assets of the banks. National banks are to be permitted to issue currency notes to the amount of the reserve notes issued to them upon deposit for United States notes.

Treasury notes issued under the Sherman Act of 1890 are to be dealt with on the same basis as United States notes or greenbacks.

A tax of two per cent is levied upon currency notes in excess of 60 per cent of the capital stock of any National bank, and a tax of six per cent when in excess of 80 per cent.

The National currency notes based upon commercial assets of banks are to be secured by a bank note guaranty fund made up by the contribution in gold coin of 5 per cent of the entire circulation of the banks.

The National reserve notes will continue to be legal tender until received in the Treasury from failed and liquidating capital, surplus and undivided profits.

National banks are permitted to establish branches under regulations to be prescribed by the Secretary of the Treasury.

The bill proposes to withdraw all Government paper money from circulation and permit the National banks to issue currency notes to meet requirements of commerce. It provides for the redemption of standard dollars in gold and more securely places the country in the tentacles of the money octopus. It is not probable that the bill can pass the Senate unless the complexion of that body is changed and that cannot occur during the Fifty-fifth Congress.

THE ANNEXATION OF HAWAII.

The government of Great Britain is surprised at the report of the Senate committee on foreign relations which, after presenting a joint resolution for the annexation of Hawaii, set forth that Great Britain was plotting for the absorption of Hawaii. A high official in the British foreign office said: "It is unfortunate that the committee has such an erroneous impression. I cannot imagine upon what supposed facts they base their report. It seems improbable that the Senators would issue official statements on no other basis than rumors and suspicions. As a matter of fact, nothing is farther from Great Britain's intention than to interfere in any way with the existing regime in Hawaii. No steps in that direction were ever contemplated. On the contrary her majesty's government has recognized that the United States has the foremost interests in Hawaii and that it is natural and inevitable that Hawaii should be under American influence."

Spain's national debt is \$1,709,000,000 with an accruing annual interest of \$105,000,000, while her annual income amounts to about \$160,000,000. The latter will little more than pay the annual interest on the debt, so it is not very likely that Spain will be allowed by her creditors to increase her debt by going to war, however disposed her fire eaters may be for a conflict.

She is in a desperate strait financially and in addition to this the existing political complications in her home government are such that she is on the verge of destruction and when this is considered, it is not to be wondered at that she would resort to war or most anything in the hope of changing the fate that seems inevitable. Like an individual who is driven to the wall and can see nothing but humiliation and disgrace on the one side and suicide on the other, the latter is preferable. Such is Spain's position.

ONE of the most ominous signs that the strained relations between the United States and Spain will result in war is furnished by the English ship owners who have cabled to their shipping agents in America that all charters must contain the war clause.

The Governor of North Carolina informs the President that the old Tar State can furnish 245,000 men in case of hostilities. Lets hear from the Governor of South Carolina.

TELEGRAPHIC NOTES.

An extra session of the Cabinet was held at 3 o'clock yesterday afternoon. A synopsis of the report of the Board was cabled Minister Woodford at Madrid yesterday.

The New York Naval Reserve has received word that it will be ordered out perhaps at any moment.

President McKinley has authorized the report that the Maine was blown up by external explosion.

The President has ordered the Secretary of War to garrison Forts Jefferson and Tortugas immediately.

Secretary Day issued an order yesterday morning for troops to be ready in the west to move at a moment's notice.

The naval officers at Key West are of the belief that the Spanish torpedo flotilla will be stopped before it reaches Porto Rico.

Secretary Day gave out yesterday that he was in favor of the most energetic intervention in regard to the Cuban question.

Congress will not adjourn before Monday in order to give President McKinley opportunity to communicate with that body at any moment.

Secretary Long has issued orders for the naval officers to inspect the naval militia and report the number of able men and those willing to enter the service.

Commodore Schley has designated the Brooklyn as the flagship of the flying squadron and his flag will be raised on that ship at Hampton Roads Monday.

President McKinley and Secretaries Long, Day and Alger began the consideration of the report of the Board of Inquiry regarding the blowing up of the Maine, at 10 o'clock yesterday morning.

Army orders have been issued to mobilize the infantry and cavalry east of Denver on the Atlantic and Gulf Coast. A requisition has been made for 5,000 army tents to be delivered within 30 days.

The rain storm is something phenomenal in Ohio, Western Pennsylvania and Indiana, the down pour having been continuous since last Saturday. Much suffering will result unless the State or Federal Government comes to the aid and relief of the people who have been unfortunate.

Captain Roberts of the Revenue Cutter Rush has reported to Collector Jackson of San Francisco that the wreck of the Helen W. Almy cannot be removed from its present position and that it is a menace to navigation. Jackson has requested Major Davis of the U. S. Engineer Corps to blow up the wreck.

From reliable authority it is learned that the report of the Board of Inquiry will say that the Maine was blown up from the outside, but does not fix the responsibility. It does not even venture an opinion as to the character of the explosion, but the evidence in the report goes to show that it was from a powerful sub-marine mine, the character of which is undetermined.

Heavy floods are reported on the Ohio. It is said that the river is swollen by a remarkable and peculiar flood. It is peculiar for the reason that the stage of water is phenomenal from Wheeling to Cairo, but no tributary on the left bank of the river is making the slightest contribution to the freshet. Great damage to property and some loss of life is reported all along the flooded district. Over 600 dwellings are submerged in North Dayton and 2,000 people have been driven from their homes. Several railroad lines have stopped entirely owing to flooded tracks, washouts and bridges washed away.

THE SCHOOLYARD.

To spend large sums of money on architectural beauties and stone carvings of historic ornaments—which have but little attraction for children—to make a school building look like a palace and then to leave the schoolyard looking like a desert or the top of a bituminous lake, without a single attractive flower or one bit of beauty, are inconsistencies which seem possible only in the modern system of education. Weather beaten houses in the country, log cabins on the frontiers, railroad stations in the Great American desert and all over our country have their beautiful flower gardens, and it refreshes one's soul to see them, but there is no such source of refreshment, inspiration and instruction where children are being educated in the "essentials."—Henry Lincoln Clapp in Popular Science Monthly.

Lessen Your Wants.

More of the true enjoyment of life lies in this maxim than is generally thought. We may indeed go to extremes and cut to the quick, like that cynic philosopher who threw away his wooden cup on seeing a vagrant boy drink from the hollow of his hand. But the truth is we create many of our own necessities, and with the growth of luxury new wants come in, not by ones, nor by tens, but by hundreds.—New York Ledger.

The "Hedge" Doctor.

A "hedge" doctor, a kind of quack in Ireland, was being examined at an inquest on his treatment of a patient who had died. "I gave him ippecacuanha," he said. "You might just as well have given him the aurora borealis," said the coroner.

"Indeed, yer honor, and that's just what I should have given him next if he hadn't died."—Hospital Gazette.

Robert Morris' Bank of North America, founded at Philadelphia at the end of the year 1781, was the first banking institution founded on the American continent.

The first envelope ever made is in the possession of the British museum.

FINE EMBROIDERY.

A Beautiful Panel Screen and the Way It May Be Done in Crewels and Silk.

A species of embroidery which is called a novelty in France and is just now all the fashion appeared at the Decorative Art rooms here in New York a number of years ago, an especial exhibition of the work of Mrs. Holmes of Boston. It consisted of panels, squares and other shapes, each one being a realistic landscape done in crewels and silk.

but having all the vigor of color of an oil painting. In the accompanying design for a screen the panels are worked in this way. The first panel is entitled "A Calm Evening." The foundation is a pale, dull blue. The houses and church are put in with a dark purple. The leaves of the vine are in dark green, with others of a lighter green, the moon and its reflection pale yellow, the lines of the clouds indigo blue, the bridge and the ground a dark brown, and the markings of the water in black. The middle panel is called "A Starry Night." Gold stars are embroidered on a deep blue ground, and the clouds are cut out of a rosy gray. The third panel is called "Dawn." The foundation is yellowish pink, the line of the clouds is in bright rose color, the land in the distance indigo blue, the vessels are in a deep rich brown, and the rocks in the foreground in dark green and black.—New York Tribune.

First Girls' School in China.

The pioneer school for girls in China has been started. The Shanghai papers of the 21st of December contain the plan of organization and a curious lot of regulations which have been framed for the government of this, the first institution for the education of women founded and managed by natives. It is, of course, dedicated to Confucius, and a tablet to his honor will be erected in the school for the girls to worship.

At the beginning only 40 girls, between the ages of 8 and 15, from the upper classes, are to be received, but if the experiment is a success the number will be enlarged as fast as circumstances will justify. There are to be two teachers—Miss Au Ngao Teh and Miss Chih Mei Yu, both of whom have been educated in the United States. A board of 12 lady (Chinese) managers, or trustees, is to be elected by the votes of those who contribute to the maintenance of the school, and an advisory board of 12 gentlemen, but neither the latter nor any other men shall ever be admitted to the school. If they wish to consult with the teachers, they must arrange to meet them elsewhere. The tuition is \$1 a month, with 12½ cents per month as fees to the servants, this including sleeping apartments, but meals for boarders are extra.

Raleigh Finger Marks.

It is now 300 years since Sir Walter Raleigh lived in Ireland, but, according to Sir John Pope of Hennessy many traces of his residence there can still be seen. The richly perfumed yellow wall-flowers that he brought to Ireland from the Azores and the Affane cherry are still found where he first planted them; by the Blackwater.

Some cedars he brought to Cork are to this day growing at a place called Tiyo. The four venerable yew trees, the branches of which have twined and intermingled into a sort of summer house thatch, are pointed out as having sheltered Raleigh when he first smoked tobacco in his Youghal garden. In that garden he also planted tobacco. A few steps further on, where the town wall of the thirteenth century surrounds the garden of the warden's house, is the famous spot where the first Irish potato was planted by him.—Chicago Record.

Cingalese Children.

The Cingalese children are said to be more beautiful than those of any other race on the four continents, and some of the little girls, even of the very lowest caste, are irresistibly pretty as they run before you in the streets to beg. They cry out in the sweetest and most plaintive of voices, touching the stomach to signify hunger in a way that would be awkward and vulgar in any other being, but in them it is so winning that before you know it you sacrifice a rupee to the bad cause of encouraging them in begging—knowing quite well that all they want is a good opportunity to pick your pocket for more.—Outing.

One of the Blessings of Work.

"Oh, I guess it's a good thing I have to work so hard!" said a brooding person.

"Why?" said the other.

"I don't have so much time to think," said the first.—New York Sun.

The Herring.

A medical authority on the virtues of various kinds of food declares that the herring gives the muscles elasticity, the body strength and the brain vigor and is not flesh forming.—Pittsburg Bulletin.

Heat and Fuel Savers.
How long are you going to "get along" with that old cookstove that burns more fuel than a furnace and heats the outdoors more than it does the oven?
A very little money will buy one of our cookstoves—you'll save the price in fuel in one season. It will keep the heat where it ought to be, and cook your food as it ought to be cooked. Come in and examine them.
